MAR - A MARCH

D and E Block Auction

- U S WEST Communications urges acceleration of D/E auction.
- Services provided by D/E block licensees will be critical to consumer choice and a competitive environment.
- Delays in D/E auction would have several negative impacts:
 - Unfair headstart for PCS A,B & C licensees
 - Lessened competition for incumbent cellular carriers
 - Reduced value for D/E thus less dollars at auction

D and E Block Auction

- Remand issues should be resolved expeditiously.
- Spectrum flexibility docket (WT 96-6) should not delay D/E auction.
- Separate but parallel F auction will insulate D/E auction from undeserved challenges.
- The D/E auction should not be delayed for completion of a disaggregation docket.
